Return to On-Campus or Remote Learning:
School-wide

Julee M. Nist, M.Ed., Ed.S.
Superintendent
Overview: Planning for the 2020 – 2021 School Year

The Illinois School for the Deaf (ISD) recognizes that there is no adequate virtual substitute for in-person learning. Remote learning cannot replicate students’ experiences with educators, classmates, and staff in the school environment. Therefore, ISD’s top priority is the health and safety of students, families, and staff.

This document describes the following:

A. Return to in-person learning expectations;

B. Considerations for school and dorm that stem from health and safety recommendations established by the Illinois State Board of Education (ISBE), the Illinois Department of Public Health (IDPH) and Center for Disease Control (CDC);

Transition to Remote Learning:

C. Work ISD is doing to ensure quality remote instruction is provided by educators through training in various e-learning platforms;

D. Work ISD is doing to ensure quality remote instruction is provided and that students and families receive the support they need to benefit from that instruction;

E. Areas of support and service for students and families during the 2020-2021 school year;

F. Expectations of students and families during remote learning.
### Recommended Health and Safety Safeguards

<table>
<thead>
<tr>
<th>Type of Activity</th>
<th>Additional Safeguards</th>
</tr>
</thead>
</table>
| Traveling to and from schools | ● Limit student interaction on transportation with assigned seating.  
● Limit number of parents entering the buildings; escort younger students to parent pick-up parking as needed.  
● Revise procedures for parent drop-off to maintain social distancing and limit building circulation.  
● Provide training for bus drivers and monitors on hygiene and sanitation procedures.  
● Ensure pre-and post-trip cleaning of high-contact areas on Buses and vans.  
● Implement procedures for ensuring bus drivers and monitors are healthy before boarding the bus and students do not have a fever or symptoms before boarding the bus. |

- Daily symptom and temperature checks are required. (must be under 100.4)  
- If you drive your child to school, please pull into the main building circle drive. You will see a tent set up. You do not need to get out of your car, the screener will come to you. We will ask if your child has the following symptoms (see below) and check their temperature. If all is well, then we will give you a pass and you can drop off your child at their school building.  
- If your child rides the bus or walks to school, we will do the same process when they arrive to campus.  
- If your child resides in an ISD dorm:  
  * We will be checking your child’s temperature every morning before school in the dorm.  
  * When your child boards the bus on Sundays, our chaperones will be following a specific protocol. They will check your child’s temperature and ask if they have the following symptoms (see below). *Please remain at the drop-off until your child has been screened and allowed on the bus.*  

- It is very important that if your child has any of these symptoms, please do not send them to school. Call the school office and let us know if they will be absent.  
  - Fever or chills  
  - Cough, Shortness of breath or difficulty breathing  
  - Fatigue  
  - Muscle or body aches  
  - Headache  
  - New loss of taste or smell  
  - Sore throat  
  - Congestion or runny nose  
  - Nausea or vomiting or Diarrhea
### Outside events
- Convert field trips and other scheduled school-wide or class outings to virtual activities.
- Cancel sports tryouts, practices, and games until further guidance is issued from IHSA, ISBE & IDPH
- Eliminate nonessential travel for staff and educators.

### Dietary
Designate specific doors for entrance and exit of the Dietary.
- Create clear space delineations for student lines as people enter and exit.
- Stagger lunchtime into groups of students from Prek-6 and Jr/Sr HS and disinfect in between
  * Pre-package meals, including silverware, napkins, and seasonings, or serve meals individually plated.
  * Close all public water fountains – ISD will provide students with water bottles.

### Health Screenings
- *Conducting health and symptom screenings as students, teachers, and staff enter each day.
- *Staff displaying symptoms will be sent home and will contact Human Resources for further guidance.

### Classrooms and hallways
- *Reconfigure school activities to facilitate safe distances:
  * Rearrange desks so there is a minimum distance of 6 feet between them.
  * Assign seats/desks & computer/ipads
  * Implement one-way pathways in hallways using stickers or tape to show people where and in which direction to walk.
  * If the cafeteria must be used, stagger lunchtime into groups of students and disinfect in between or hold breakfast and lunch in student classrooms.

### After school activities
- *Review all after-school activities to ensure compliance with health and safety guidelines

### Limiting outside interactions/avoiding unnecessary external factors
- Reduce or prevent outside visitors, including families, from entering all school buildings, including the dorm.
- Develop procedures for screening outside visitors who must enter buildings to confirm they are following all precautions.
- Encourage or require all parent-teacher conferences to be held virtually.
- *Parents may sign out their student at any time.

</table>
| Maintaining a healthy environment | Implement schoolwide healthy strategies:
  * Increase the frequency of full school cleaning and disinfecting efforts.
  * Make hand sanitizer and other cleaning supplies readily available. |
*Require all individuals in buildings to wear face masks per guidance from ISBE & IDPH.
  • Consider health impacts and recommendations for length of time masks are recommended for various ages and those with breathing difficulties.
*Remove shared supplies and instead provide all students with their own classroom supplies and materials.
  ● Develop procedures for sending symptomatic personnel and students home.
  ● Designate a separate area away from all activities and away from areas used for regular health care (Cullom Hall) for students who begin exhibiting symptoms after they have arrived and spent some time at school or work. (Individuals who feel even mildly ill or have any symptoms prior to arrival will need to return home and remain there until it is safe for them to return.) This area will need to be available if dorm students are in residence.
  ● Close or restrict common areas such as staff break rooms.

Educate students on proper health strategies:
*Have students wash or sanitize their hands when entering and exiting a classroom and between activities; install sanitizer dispensers in additional locations throughout all buildings.
*Have teachers reinforce the proper cleanliness techniques.
*Have tissues readily available in classrooms.
*Identify whether there is a need to install additional infrastructure to prevent cross-contamination, such as plexiglass shields or other physical barriers, in any building locations.

● Review locker use. Either eliminate locker use or establish procedures that allow locker use while maintaining social distancing and all other safety protocols.
● Implement procedures and design an approach to physical education classes and locker room usage.
● Implement restroom usage procedures that support distancing.
● Post signage throughout all buildings to support hygiene practices and distancing.
● Implement cleaning procedures for all buildings.
● Implement procedures for restocking cleaning and sanitization supplies for daily use in all spaces.
● Ensure adequate supplies to support current distancing needs are available in all buildings and stock “Go Kits” supply with additional supplies.

<table>
<thead>
<tr>
<th>Dorms</th>
</tr>
</thead>
</table>
| *Restrooms/Showers will be sanitized following IDPH and CDC recommendations.  
  *Each student will utilize their own bedrooms. No sharing of bedrooms unless siblings.  
  *Residential students will be screened daily in the morning. |

| Educators/staff | *Provide PPE, hand sanitizer, and appropriate classroom setup to enforce physical distancing.  
● Ensure safe travel to and from schools, provision of PPE, etc. |

delivery of material.  
● Ensure safe travel to and from school.  
● Facilitate safe school environments, including provision of PPE, etc.  
● Establish procedures for sending students home in cases of deliberate violations of hygiene, safety, and distancing procedures, and moving students to remote learning in situations of repeated intentional or careless violations, to protect all community members.  
● Checking students’ health upon arrival at the bus stop or the school building, including temperature checks, and sending students home in cases of fever or symptoms.
**Transition to Remote Learning:**

Work ISD is doing to ensure quality remote instruction is provided by educators through training in various e-learning platforms;

Professional development trainings in Skyward, Google Classroom, Zoom, Seesaw, Nearpod and other platforms will be available for staff, students, and families.

Educators and support staff will have access to the following:

- **Hardware:** iPad (including data plan as needed)
- **Software:** Google Classroom, Zoom, Seesaw, Planbook, Skyward

Additional software and app training will be provided as needed.

Work ISD is doing to ensure quality remote instruction is provided and that students and families receive the support they need to benefit from that instruction;

Synchronous learning will be documented in class schedules.
Asynchronous learning will be documented in lesson plans and gradebooks.
Teachers will submit lesson plans and administrators will approve and save plans.

All students will be issued an iPad. Students and teachers who do not have access to the internet in their homes will be provided a device with a data plan for remote learning purposes. All teachers, staff, students, and families will be trained in Google Classroom use. All distributed iPads will have the Zoom app pre-loaded. Seesaw will also be preloaded.

Additional platforms and apps will be loaded to iPads as needed.

Areas of support and service for students and families during the 2020-2021 school year;

**Occupational Therapy Remote Learning Plan**
1. A form was developed in March 2020 that lists each student’s parent/guardian contact information including telephone and email address. IEP OT minutes and goals are included on the form. This form also tracks the weekly contacts and interventions delivered to meet the OT minutes.
   a. Weekly phone or email contact with the parent will be made depending on parent preference.
   b. New students who enter with OT IEP minutes and goals will be added to the current schedule and interventions will be provided.
   c. New students who do not receive OT but need an evaluation will be assessed remotely by parent phone interview and possibly Zoom conference observations- minutes will be decided at the remote IEP meeting

2. Parents will be given the choice of one or more of the following interventions:
   a. Emailed OT interventions/activities
   b. Paper OT interventions/activities mailed
   c. Google Presentations shared
   d. Zoom OT sessions

3. Follow-up phone call or email will be conducted on a weekly basis to determine progress and participation.

4. Daily notes will be kept on the parent contact form.

5. Skyward progress notes will be entered at the appropriate intervals and will be based on progress shared through parent information, possibly photos of work completed, and Zoom sessions if possible and approved by the parent.

Additional supports will be provided per the student’s IEP.

Expectations of students and families during remote learning.

All students at ISD have Individualized Education Plans (IEPs) which will continue to guide instruction. Students will receive instruction, practice, and work allowing them to continue making progress toward IEP goals and objectives. The IEP for each student will be reviewed by the case manager,
and it will be determined which accommodations and supplementary aids are able to be provided during remote learning days. Speech/Language, Social Work, Occupational Therapy, Physical Therapy, Learning Resource, and Transition services will be provided during remote learning days when possible.

Skyward, our school management system, will be utilized by teachers to record attendance for all students and in all classes during remote learning days. Administration will monitor attendance for trends. Teachers will also document completion of work assigned in the gradebook for the course/subject.

Participation in synchronous (at the same time ex: zoom) school activities will take place during regular school hours (8:20 a.m. to 3:00 p.m.) Students will be expected to participate. ISBE has set the requirements of 5 hours of learning per day. Parents/guardians will need to notify the respective school office of an absence by 9:00 a.m. Asynchronous learning activities may be completed when convenient for the student and family.

Additional Details (8.12.2020)

**Hours of synchronous learning expected**

The ISBE has recommended that each student be provided with 2.5 hours of synchronous learning each school day, allowing for live interactions among teachers and students. The platform that Illinois School for the Deaf will be using for this expectation is primarily Zoom. A formal schedule for providing synchronous learning is included in this document. It is expected that some flexibility will need to be provided to meet the needs of some of our students and their families. Teachers who are requesting a change to their synchronous learning times will need to discuss those proposed changes with their building principal.
**Hours of asynchronous learning expected**

A total of five hours of instruction should be provided to students each school day. Lesson plans should reflect this amount of work is being expected from students each day. Approximately 2.5 hours of asynchronous learning should be planned for each school day.

**Hours of expected time at school in classroom**

Educators will be given the option of working remotely or from their classroom at ISD to provide remote education to our students. DHS/DRS is still recommending that state employees work remotely when possible. iPads can be provided to educational staff who are unable to work remotely with their personal technology if requested. All educational staff who are planning to work from ISD’s campus will need to seek permission from their building principal.

**Grade expectations**

Grades should maintain flexibility during remote learning. All assignments given should be posted in the educators’ Skyward gradebook to document completion and actual letter grade earned, as would be expected for in-person learning. Final grades at the end of the quarter will be overridden with a pass/incomplete for all students, except for those in grades 9-12 working towards high school credit and a cumulative GPA and not in the TLP and/or FLS. A passing mark can be received only if 75% or more of the work assigned is completed.

**What to do if a sub is needed during remote learning**

Synchronous instruction will be cancelled for the day the substitute teacher is needed with additional asynchronous learning and instructions being
provided to students. Students and their families should be notified of the change in schedule by 8:00 a.m. on that day by their teacher and the building principal should also be notified and provided with the plan for additional synchronous learning activities being provided to students on that day. If an educator will need to miss a class more than three times during the remote learning period of nine weeks, a plan for sub coverage from another available educator will be established.

**Flex hours**

As a rule, educators will continue to work their contractual hours of 8:05-3:00, including a 40- minute duty free lunch period and a 40-minute prep period each day. However, it is noted that in a remote learning environment some challenges may arise for students and their families regarding times available for instruction from home. The learning resource educators (if available) may be utilized to provide instruction to students unavailable during a regularly scheduled synchronous class at another time during the day. In addition, if an educator has a class where a schedule change is necessary and/or agreeable for every individual, the educator can discuss a proposed schedule change with their building administrator. Approval for schedule changes such as these will be provided sparingly, as maintaining a consistent structure for remote learning should lead to increased participation by our students and their families.

**Any in-person learning abilities**

No in-person learning services/instruction will be provided at this time except for those educators serving our 0-3 population in their home environments. The 0-3 educators will follow the guidance issued by Early Intervention regarding providing services during each stage of this health crisis in Illinois.
Reporting to work

Educators reporting to work on campus at ISD will report to the nurse’s station set up in front of Main Building to be screened before reporting to their designated work location.

Attendance

Daily attendance for synchronous learning will be documented in Skyward by the classroom educator for each class period attended that day. Student attendance is required during the remote learning period and this will need to be emphasized with our students and their families regularly.

Daily Schedule:

Junior/Senior High School and TLP:

8:20-10:20 – Office Hours (Prep time, ER/IEP meetings, 1-1 instruction opportunities, Classroom work, Transition Appointments), Related Services

10:30-10:55 – 1st period
11:00-11:25 – 2nd period
11:30-11:55 – 3rd period
12:00-12:40 – Lunch
1:00-1:25 – 4th period
1:30-1:55 – 5th period
2:00-2:25 – 6th period
2:30-2:55 – 7th period
Elementary:

8:30-11:00 – Core teachers provide synchronous instruction in the core subject areas of reading, language, mathematics, science, and social studies

11:00-3:00 – Office Hours (Prep time, ER/IEP meetings, 1-1 instruction opportunities, Classroom work, Related Services, PE classes, and Fine Arts classes as scheduled by building principal

Please note that this is a fluid document that will be updated as needed to continue to meet the ever-evolving recommendations from ISBE, IDPH and the CDC.
